Proof 5 for ExtendSim	\$500	Upgrading an Existing Copy of P4 for ExtendSim to P5	\$200
<p>Proof 5 (P5) is the successor to our popular P4 2D animation software. ExtendSim includes features that make it quite easy to add high-quality 2D animation to an ExtendSim model.</p> <p>P5 is able to smoothly animate the motion of large numbers of objects. Animations can be displayed as a model runs (concurrent execution) or by generating a trace file for post-processing.</p>		<p>P4 was distributed by Imagine That, Inc. as a component of ExtendSuite. Users who purchased P4 as a component of ExtendSuite or as an individual item should strongly consider upgrading to P5.</p>
